

Report on Make Men; Make Nation

Women's Cell in association with CICC ATME College of Engineering, Mysuru is jointly organized a talk on Make Men; Make Nation by Swami Veereshananda Saraswathi, President, Ramakrishna Ashrama, Tumakuru on 22nd February 2023.

Swamiji spoke about the importance of the citizens of the country. The phrase "Make men make the nation" is a call to action, urging men to play an active role in building and shaping their nation. It suggests that the strength and success of a nation depend on the character and actions of its citizens, particularly its citizens.

To "make men" implies a process of development and education, where men are taught the values, skills, and virtues necessary for contributing positively to their society. This can include instilling a sense of civic duty, promoting ethical behaviour, and encouraging a commitment to the common good.

By "making men," the hope is that these individuals will go on to become leaders, innovators, and representatives of positive change in their communities and beyond. They will work to improve social, economic, and political conditions, and strive to create a more just and equitable society.

Ultimately, the phrase "Make men make the nation" highlights the important role that men can and should play in building a strong and prosperous nation. It is a call to action that encourages men to embrace their responsibilities as citizens and work together to create a brighter future for themselves and their fellow citizens.

Members present during the talk: Dr. L Basavaraj, Principal, Dr. Sachidanandamurthy, Administrative officer, Organizing Chair and Dean Research Dr. Bhagyashree S R, Program coordinators Mr. Ravi Kumar S, Mrs. Priyanka N B, and other faculty members and Students of ATME family were present.

Able Teacher; Nation Builder

Women's Cell, ATMECE has organized a motivational talk for student and staff on 22/02/2023, Wednesday at 3.00 PM in auditorium. The Resource person was Swami. Veereshananda Saraswathi, Ramakrishna Ashrama, Tumkur.

The talk was focused on a teacher's role in building a country into a nation, as they play a major role in the lives of students who are learners today and leaders tomorrow. It was an introspection about how a teacher was identified, respected, and revered in Indian society. The session started off with a comparison between the teachers in the ancient times and the present day. The bond between a teacher and a student might have changed in various ways, yet it remains enchanted as the teacher or the guru, continues to inspire and groom his students selflessly. The present-day constraints to what are being taught in a classroom were criticized as they act as a hinderance in bringing out the students' actual talents.

Teaching will percolate into our intellectual body as well whereas lecturing is a surface truth. The three important people in a person's life include mother, father, and the teacher. One who can't be inspired or influenced by either of them, cannot succeed in life.

A good student reflects a good teacher. Swamiji also mentioned inspiring words by swami Vivekananda which goes by, "we want an education by which character is formed, strength of the mind is increased, intellect is expanded and by which one can stand on one's own feet".

The teacher's teaching should develop intellectual curiosity within a student, make them skillful, cultured and inspired. A teacher's dedication towards their profession and a good rapport with the parents can truly make a difference. The sentiments a teacher has while working in an institution can be utilized as a positive drive to inspire their students.

The responsibility a teacher holds is not just a commitment to the institution but a commitment to the society to provide great leaders and citizens.

Teacher is an honourable man; he is the leader of every person in the society. Education is the only panacea for human problems. Swamiji concluded his speech by saying, let us make our education strong vibrant and try our best to develop the country to a great extent by developing the values and the ethics.

Dr. Basavaraj L, Principal, Dr. Sachidanada Murthy, Administrative Officer, Dr. Bhagyashree S R, Chairperson Women Cell, CICC, Prof & Dean- Research, ATMECE, HoD's of various department, Co-ordinators of the event Mrs. Priyanka N B., Assistant Professor, Dept. of Mathematics and Mr. Ravi Kumar S, Assistant Professor, Dept. of ME and other members of the committee were present during the event.
