## CIRCULAR

**Subject:** Ban on Carrying Mobile Phones to the College Premises

It has come to the attention of the college administration that certain students of first year "F" Section (2023-24 batch) have been found using mobile phones to record videos during class sessions, which is a violation of college regulations and disrupts the learning environment. Following a thorough investigation conducted by the Inquiry Committee, it has been confirmed that these incidents indeed occurred.

To uphold discipline and integrity on campus, the college authority has decided that students of the **First Year "F" Section** are prohibited from bringing mobile phones to college starting May 27th, 2024, until further notice.

We urge all students to adhere to this instruction strictly. The cooperation of every student is essential in ensuring a conducive learning environment for all.
