

Department of Electronics & Communication Engineering

To,

08/03/2025

The Principal,  
ATME College of Engineering  
Mysuru-28

Dear Sir,

**Sub:** Request to conduct Technical Talk on "The future of embedded systems: trends, challenges and opportunities"

The Department of Electronics & Communication Engineering in association with IETE Student forum is planning to organize a Technical Talk titled "The future of embedded systems: trends, challenges and opportunities" on 14<sup>th</sup> March 2025, starting at 11:15 AM. The estimated budget for the event is Rs.4, 800.00. In this regard, we request you to kindly grant permission to conduct the event and also requesting you to grant the requested budget and oblige.

**Objective of the Technical Talk:**

1. Scope to future directions of embedded technologies in real-world
2. Importance of Embedded system in view of industry standards.
3. How can we incorporate theory / skills of Embedded System to industry level.
4. Tools that currently being used at Industry level
5. Current trends in R & D
6. Pre requisites for a student to enter into embedded system/ core domain

**About the Technical Talk:**

The session will feature proficient speakers on solid understanding of embedded systems, their relevance in today's world, and the opportunities and challenges in designing and developing them.

**Outcome of the Technical Talk:**

Students will gain insights on importance of embedded systems at industry level. Also, they will be able to inter-connect theory and tool- handling skills to today's demand. Further, they will get exposed to the current research and development in the field of Embedded Systems.

**Target Audience:**

This event is specifically aimed at 6th semester students of Electronics & Communication Engineering.

**Resource Person:**

- |                                   |                         |
|-----------------------------------|-------------------------|
| 1. Pradeep N G                    | 2. Sudheendra S         |
| Hardware & System Practice - Head | Embedded software -Head |
| Logycent, Mysore                  | Logycent, Mysore        |

Please do needful and oblige.

Thanking you,

ISF Coordinators- Ms. Anupama Shetter

Event Coordinator-  
Ms. Mythri R  
Mrs. Spoorthi P N

**Logycent Mysuru**

*Dear Pradeep N G,*

I hope this letter finds you well. On behalf of the Department of Electronics and Communication at ATME College of Engineering, Mysuru, in association with ISF, I am delighted to extend an invitation to you to be the distinguished resource person for our upcoming technical talk on **"The Future of Embedded Systems: Trends, Challenges and Opportunities "**

Event Details:

Date: on 14<sup>th</sup> March 2025,  
Time: 10:00 AM.  
Venue: Room No. 401 (Admin Block)

We believe that our students will gain insights on importance of Embedded Systems at industry level also they will be able to interconnect theory and tool handling skills to today's demand. Further, they will get introduced to the current research and developments in the field of Embedded Systems. These fields can enhance their academic and professional journeys. We highly value your contribution and look forward to the prospect of your involvement in making this technical talk a success.

Thank you for considering our invitation. We are eager to have you with us and share your expertise with our students.

Kind regards,

  
Dr. Prathibha M K  
HOD & Associate Professor,  
Dept. of ECE,  
ATMECE, Mysuru

## Department of Electronics & Communication Engineering

The Department of Electronics and Communication Engineering in association with IETE Student forum had organized a technical talk on “The Future of Embedded System: Trends, Challenges & Opportunities” on 14<sup>th</sup> March 2025 to the students of 6<sup>th</sup> Sem in Seminar Hall of the Department.

Mr. Pradeep N G and Mr. Sudheendra S, Logycent Musuru was the Guest Speaker.

### About the Technnnical Talk.

Embedded systems have become an integral part of modern technology, and their importance is increasing day by day. These systems are designed to perform specific tasks and are embedded in everyday devices, making them intelligent and interactive.

From smartphones to medical devices, embedded systems have revolutionized the way we interact with technology. The history of embedded systems dates back to the 1960s, and over time, they have evolved and become more sophisticated, smaller, and more efficient.

As technology advances, it's important to understand future trends and predictions in the field of embedded systems to stay ahead of the curve and take advantage of the future scope of embedded systems.

## Department of Electronics & Communication Engineering

Students will explore what embedded systems are, their importance, their evolution over time, and why understanding their future trends and predictions is crucial for anyone interested in the field. Talk also covered how to address these future trends and enable engineers to build a long term career.

### Outcome.

Students were able to understand future scope of embedded systems is vast and promising, with numerous trends and predictions likely to shape the industry. Key points discussed in the talk includes increased demand for low-power, high-performance devices, advancements in connectivity and communication technology,

Further, challenges to be addressed in the industry, such as balancing performance with energy efficiency and ensuring security and privacy, there are also significant opportunities for innovation and growth was conversed. Having said all these opportunities, it will be futile if students don't clearly understand the need to skill engineers and make them employable. Hence the idea of embedded engineers comes into picture. By learning this long term gap can be resolved. The upcoming of embedded engineers is that they assist in the design, development, and maintenance of embedded systems in products. Software/Hardware development is broadly a part of the job. Nevertheless, students were able to understand that there is a need of thorough understanding of complete embedded systems.

**ATMECE, Mysuru**

**Subject: Regarding the submission of balance sheet for technical talk on “The Future of Embedded System: Trends, Challenges & Opportunities”**

With respect to above subject, the Department of Electronics and Communication Engineering in association with IETE Student forum had organized a technical talk on “The Future of Embedded System: Trends, Challenges & Opportunities” on 14<sup>th</sup> March 2025 from 10:00 AM to 11:30 AM , to the students of 6<sup>th</sup> Sem in college Seminar Hall. The total amount spent for the event is Rs. . the balance sheet is enclosed for your kind reference.

Thanking you  
Event Coordinators

Encl: Detailed balanced sheet
