

## **Transparency and availability of correct / unambiguous information in public domain (5)**

At ATME College of Engineering, we ensure transparency in all our operations and work. At the beginning of each semester, a calendar of events with pertinent information about activities for the semester is sent to all departments. Our college website provides access to crucial data regarding policies, rules and processes which are available to stakeholders. Furthermore, the student handbook contains regulations related to conduct & discipline such as class regulations, placement regulations, sports regulations, Fee/Scholarship regulations, hostel regulations etc. which can be found on [www.atme.in](http://www.atme.in) with links to the relevant pages and documents on our website in support of transparency.
