

NATIONAL SERVICE SCHEME

A report on “Environmental Awareness”

Place: Maharaja Grounds, Mysuru

Date: 27th October 2025

The NSS Unit of ATME College of Engineering (ATMECE), in collaboration with the Karnataka State Pollution Control Board (KSPCB), Mysuru, organized an **Environmental Awareness Programme** on 27th October 2025 at Maharaja Grounds, Chamarajapuram, Mysuru. The programme was conducted with the objective of creating awareness among students and the public about environmental protection, pollution control, and sustainable living practices.

Objectives of the Programme

- To create awareness about environmental pollution and its harmful effects.
- To educate participants on the importance of environmental conservation.
- To promote eco-friendly practices and responsible use of natural resources.
- To encourage youth participation in environmental protection activities.

The programme commenced at **10:00 AM** with a brief introduction highlighting the significance of environmental awareness in the present scenario. Officials from the **Karnataka State Pollution Control Board** delivered informative sessions on various environmental issues such as air pollution, water pollution, solid waste management, and noise pollution.

NATIONAL SERVICE SCHEME

The resource persons explained the role of individuals and institutions in reducing pollution and maintaining ecological balance. Demonstrations and interactive discussions were conducted to help participants understand practical measures like waste segregation, recycling, reduction of plastic usage, and energy conservation.

The participation of ATMECE in such a large-scale and meaningful event is a reflection of the institution's commitment to environmental sustainability and social responsibility. A total of 120 student volunteers from the college took part in the campaign.
