Report on Outreach Programme

The Department of Humanities and Mathematics, in association with the Women Cell, ATME College of Engineering, Mysore, organized an outreach programme on **“Importance of Grammar, Basic Mathematics Concepts, and Knowledge of Fundamental Rights of Citizens”** on **10 January 2026** at **Government High School, Harohalli Village, Varuna Hobli, Mysore Taluk.**

The objective of the programme was to enhance the students’ understanding of **English and Kannada grammar**, to strengthen their **basic mathematical skills**, and create awareness about the **fundamental rights, fundamental duties, and human rights of citizens.**

Mr. Chandrashekar C, Faculty and Resource Person, delivered an informative session on the **basic rights of citizens, fundamental rights, their limitations and restrictions**, methods to **protect fundamental rights, fundamental duties, and human rights**. The session helped students understand their constitutional rights and responsibilities in a simple and effective manner. He also conducted a **general knowledge quiz** during his session, which received an excellent response from the students.

Ms. Bharathi R, Faculty and Resource Person, explained the **importance of English grammar**, with special focus on **parts of speech**. At the end of her session, she conducted a **word-building competition**, in which the students participated actively and enthusiastically. The session helped students understand the concept of the grammar.

Simultaneously, **Mrs. Leelavathi C R**, Faculty and Resource Person, conducted a session on **Kannada language grammar (Vyakarana)** and explained the effective use of grammar in writing. She also conducted a **grammar quiz** during her session, which received an excellent response from the students.

Mr. Rangaswamy, Faculty and Resource Person, delivered a session on **basic mathematics concepts**, focusing on **BODMAS rules, problem-solving techniques, and simple mathematical tricks**. session helped improve the students’ logical thinking and problem-solving skills.

All the sessions were interactive and encouraged the active participation from the students. At the end of the programme, a **written quiz** was conducted to assess the students’ understanding of the topics covered. **Prizes were distributed to the winners of competition.**

Overall, the outreach programme was **highly successful. More than 350 students were benefited greatly** from the sessions, gained valuable academic and social knowledge and Responsibilities.

Mrs. Sujatha, Head Mistress, along with fellow colleague teachers, was present during the **valedictory session**. And expressed their appreciation for the initiative taken by ATME College of Engineering, Mysuru.

Convener of the Proramme Dr.Bhagyashree S R, Chairperson ,Women Cell,ATMECE.
