

## DEPARTMENT OF CIVIL ENGINEERING

### Technical Talk Report on “Industry Readiness and Career Opportunities in Civil Engineering”

Department of Civil Engineering organized a technical talk on “**Industry Readiness and Career Opportunities in Civil Engineering**” on 13<sup>th</sup> October 2025 for **3rd, 5th, and 7th semester** Civil Engineering students with an objective to enhance awareness of emerging opportunities in the civil engineering field, bridge the gap between academia and industry, and prepare students for professional readiness

Resource person during the presentation explained how to focus on the importance of equipping future civil engineers with the right blend of technical knowledge, practical exposure, and professional skills to meet the evolving demands of the construction and infrastructure sector.

### Outcome:

The students will be able to:

- Understand the current trends, challenges, industrial readiness and opportunities in the field of civil engineering.
- Acquire the essential technical competencies, emerging technologies, and professional skills required to enhance their employability and industry readiness.
- Know the bridge gap between academic knowledge and industry expectations, preparing themselves to become competent civil engineers capable of contributing to sustainable infrastructure development and global opportunities.
